EXAMASSIST

ExamAssist is now available exclusively from A.S.K. Services, Inc. This labor-saving product takes the standard title search one step further: your search is typed in pre-commitment format and uploaded seamlessly to your title production software.*

How it Works

Our examiner coordinates with you to understand your schedule B-I and B-II preferences. We start by including all of your standard exceptions and requirements. Next, we perform a preliminary exam of the title search and add additional requirements and exceptions, as necessary, according to the nature of the property search. All of this is prepared in your preferred pre-commitment format. Finally, we transmit the results electronically to you, which you can then upload to your title production software.*

What's left is for your examiner to review the file and add a few additional items (i.e. buyer's name, lender's name, policy amount) before giving it her final seal of approval and signature.

How it Helps

Agents currently using **ExamAssist** find that:

ExamAssist saves you time

ExamAssist enables your examiners to complete more files in a day

ExamAssist frees up your personnel to perform other important tasks

ExamAssist increases your capacity, allowing you to accept additional orders or new clients

ExamAssist increases your revenue, by allowing you to do more deals every month

ExamAssist lets you outsource overflow work during market swings or staffing shortages (i.e. vacations and sick leave)

Your account manager can address any further questions you may have and help you determine if **ExamAssist** is right for you.

*ExamAssist is currently available in SoftPro or Microsoft Word format.
